

The radio network K-LOVE is heard on 89.9, 91.9 and 88.1 in this area because of this radio station my children get positive music while they are visiting me and I don't have to worry about what the D.J. is going to say. If this programming is lost in this area my children will lose the only positive radio station in this area. There many thousands of people in this area that listen to this station and I believe positive influences are worth keeping around.
Thank You from a concerned citizen of the Lincoln, Nebraska area.
